## **Fisher MRX coming to Canada!**

**National Motorsports and Fischer Motor Company is proud to announce the arrival of the new Fischer MRX to Canada.**

Dan Fischer the man behind the MRX is finally seeing his dream come to fruition. Production of this American built sports motorcycle has gotten underway after 8 years of intense development.

Barring any unforeseen problems with Canadian homologation, expect to see the first MRX motorcycles to arrive in the spring 2010.

The MRX uses the Hyosung 90° 650cc v-twin engine making National Motorsports a natural choice for distributing this new motorcycle.

There has been a growing excitement all across Canada from dealers and consumers surrounding the arrival of the MRX. It's Canadian unveiling will be held on Friday December 11th during the Toronto Motorcycle show.

Should you require further information please do not hesitate to contact me directly.

Regards,

**Kent Aubichon**
